

## Know CPR Now Offers Remote CPR & First Aid Training

In your own controlled environment, you and your staff can now complete **a hands-on CPR & First Aid course...on manikins that we send to you.**

This is NOT an online class. It is a remote class with hands-on training and a live instructor.

The course is exactly the same as if you invited the instructor to your location.

With Remote CPR Training:

- 1) Call (703)-528-7045 to schedule a class.
- 2) We send you manikins to use during the class.
- 3) During class a live CPR/First Aid instructor teaches a CPR & First Aid class via a 2-way video-audio call (like Skype, Zoom or Facetime). Topics covered are the same as those covered in traditional classes.
- 4) During the class you will demonstrate skills on the manikins that we sent you.
- 5) Upon successful completion of the remote course you will receive a CPR & First Aid certificate valid for 2 years.
- 6) You can be located anywhere....all you need is a computer, WIFI, and webcam.
