On-site CPR Training

Know CPR is the preferred choice for hundreds of physicians, dentists, banks, law firms, daycare centers, churches, restaurants, associations, special interest clubs, and groups in the Maryland- DC- Northern Virginia region.

Know CPR training is more convenient than other programs -- We come to you at no additional cost, when you want (mornings, afternoons, evenings, weekends --even before work!)

Know CPR training is more affordable than other programs -- Our prices are always the lowest in the area.

American Safety and Health Institute BLS Healthcare Provider Course

This nationally-recognized BLS Healthcare Provider course is designed to teach the skills of CPR for victims of all ages (including ventilation with a barrier device, a bag-mask device, and oxygen), use of an automated external defibrillator (AED), relief of foreign-body airway obstruction (FBAO) and two-rescuer CPR. It is intended for participants who provide healthcare to patients in a wide variety of settings, including in-hospital and out-of-hospital settings. This certification is valid for two (2) years.

And now we offer “Traditional” and “Challenge” classes. While all CPR classes include hands-on practice with manikins and AEDs, “Challenge” classes do not include a lecture or video, and last approximately 1 ½ hours. “Challenge” classes are intended for those who have previously completed a CPR course, and whose certification card is either about to expire or has recently expired.
