

Don't have the time for a traditional CPR & First Aid class? Try Remote CPR & First Aid Training.

- **Remote hands-on CPR & First Aid is ideal for classes of 1-6 people. You can be located anywhere. All you need is a webcam and connection to the Internet.**
- **This is NOT an online-only CPR class. Because CPR training MUST have hands-on training.**

With Know CPR's remote CPR & First Aid training, you complete an interactive online CPR & First Aid component and then practice your skills **in front of a live CPR instructor** via a 2-way video-audio call on manikins that we have mailed to you. This remote skills session lasts approximately 40 minutes.

You will then receive an American Safety & Health Institute certification that is valid for 2 years.

5 EASY STEPS:

Step 1.	Contact Know CPR to set up your remote hands-on skills evaluation session and tell us where to mail the manikins.
Step 2.	You will then receive an email with a link to an interactive online course that must be completed prior to the remote hands-on training session.
Step 3.	We will send you a link to join the remote hands-on skills evaluation which is with a live instructor via 2-way audio-video call (approx. 40 min).
Step 4.	Receive nationally-recognized CPR certificate valid for 2 years.
Step 5.	Return equipment in original box with the prepaid postage within 14 days to receive a complete refund of your equipment deposit.

PRICES:

CPR/AED (Adult, Child, Infant)*	First Person**: \$69⁹⁵	Each Additional Person**: \$49⁹⁵	100% Refundable Equipment Deposit**: \$40
--	--	--	--
